## A NEW FACE IN THE LIBRARY

Meet Hannah, our new Community Engagement Liaison. You might see her out in the community (once we're back to more normal circumstances) as she will be working to build partnerships with local businesses and organizations and foster relationships with community members and stakeholders.

Not only will Hannah be responsible for organizing job and business related resources and programs, she will also be expanding into the area of social services. Hannah has a background in social work and is passionate about providing resources and educational opportunities that aim to expand knowledge and enhance quality of life.

Hannah has recently been collaborating with the Cary-Grove Food Pantry to encourage food security throughout our community. To promote this effort, we are again collecting non-perishable food and toiletry donations in our lobby. In addition, FOCAL has generously agreed to donate a selection of books that will be given out to those who use the pantry's services. The Cary-Grove Food Pantry is free and available to anyone.

We'll take a look at some of the songs that captivated the public and how their popularity continued into the present, and we'll also share some songs and rags that were hits back in their day. So to quote Irving Berlin, "come on along" for a great hour of ragtime and also some early jazz and blues with Cherry & Jerry!

**Julia Child: Chef & Spy**  
*Wednesday, July 14, 7-8:15 pm*  
Zoom. In 1963, Julia Child became the first superstar chef. Her program was so influential the Smithsonian Institute features her kitchen, intact, as a permanent exhibit! There was another side to Julia Child—one that is little known to the public. In 1943, during World War II, she worked in the OSS, which was to become the CIA. With her husband, Julia moved from one dangerous posting to another, serving our country before she learned how to cook. Join Presidential Award-winning historian Barry Bradford to learn about both sides of the amazing Julia Child.
